--	-----

2. Measures taken to complete the syllabus of courses and programs.

- The effective management strategies adopted for timely completion of the syllabus and other pre requisites of the online course are indicated as under:
- Selection of the online course as a prioritized area which included research inputs, learning outcomes and extension strategies.
- Selection of the participants on the basis of parameters incorporated in a google form which was floated in various student groups to get maximum outreach and participation. This helped in the selection of the best aspirants.
- Pre evaluation of the selected aspirants to know their level knowledge about the field and customized the syllabus as per their needs and level.
- Framing of the session plan to involve maximum participation and avoid any clash with other academic activity.
- Customization of the online course to keep the students engaged and active by including a lecture followed by a google quiz based on the lecture, documentary based on the lecture. Lastly the session was concluded with an interaction with an expert in the field.
- The session were divided into two technical sessions. The first technical session was scheduled in the morning and the second technical session was scheduled in the evening.
- The online program was divided into four phases for timely composition of the course.
- First phase: It included the first two months of the program which consisted of four main sessions Technical Session: It comprised of 60 sessions.
- First ten sessions (1-10): Pre evaluation of the participants orientation and introduction to the course.
- Documentary films based on the introductory part of the course. Sessions by experts based on the introduction. Remaining sessions (11-60): Sessions based on the course contents of the course mostly scheduled for the morning.
- The participants were given assignments and google quiz based on the sessions which they had to be submitted before the evening sessions.
- The sessions of the evening comprised of the documentary films based on various contents of the course and were followed by the interaction and doubt clearing sessions with the participants.
- The assignments were uploaded during the sessions and any clarification sought by the participants regarding the same was provided by the experts.
- Technical session II ( 15 days) : It comprised of 30 sessions spread over a fortnight with two sessions per day. The technical session II was based on the practical knowledge about the course.
- It comprised of interactive virtual visits to the National and International organizations, Laboratories and research stations were in the participants were given a thorough insight about the course which had been taught in the first technical session. The practical session was again followed by an assessment tests, which were devised to get the timely assessment of the participants and their understanding of the course.
- Technical session III (15 days duration): Interactive sessions .This session was divided in a way that each participant was given a project assignment based on the course contents and was told to prepare a video lecture of the assignment.
- In view of a restrained internet connectivity the presentations were delivered from the host and the participant was asked questions by the panel selected for the purpose.
- Technical session IV (15 days duration): Assessment session and post evaluation of the participants
- The sessions were taken up by national reputed scientists who assessed the participants in three phases. First phase was a google assessment form which had to be filled in within a time period.
- The second phase was based on the powerpoint presentations by the participants based on the randomly selected topics from within the contents.
- The final assessment involved the interaction with the expert panel.
- Thus the course was thoroughly covered, and completed with the timer frame with a google learning outcome.
- Extra-classes were taken to complete the syllabus on stipulated time
- Assignment and video lectures were provided to the classes
- Course completion certificates from course instructors and feedback from the class representative of different courses.
- All the students in each course were enrolled in the google class.
- Live lectures were delivered using the platforms like zoom, google meet etc.
- Audio/video materials were shared in the google class with students for ready reference.
